

Support of people of Landkreis Gotha during Corona crisis

We want to help people who are affected by the current situation regarding Corona. Our offer aims at people in quarantine, people that can't go outside for whatever reasons or people nobody cares for. They might have problems to get hold of things they need, such as food and drugs. Or they need someone to take the dog for a walk. Those are mainly elderly people or people belonging to the high-risk group.

Nobody should be alone in this situation.
